

Environmentally-friendly Water-Based Penetrant NEO-GLO FWB3

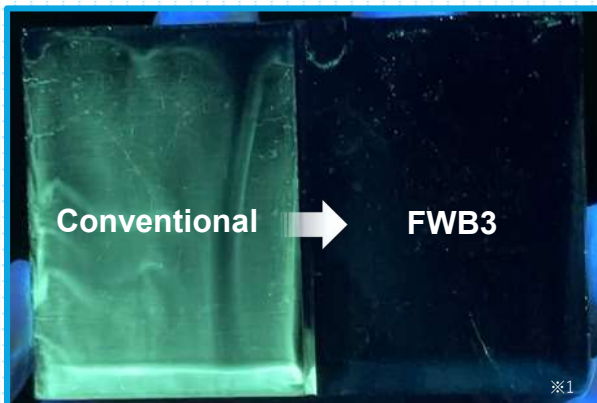

Excellent Washability

Excellent Surface wetting

Easy Wastewater Treatment

Environmentally-friendly

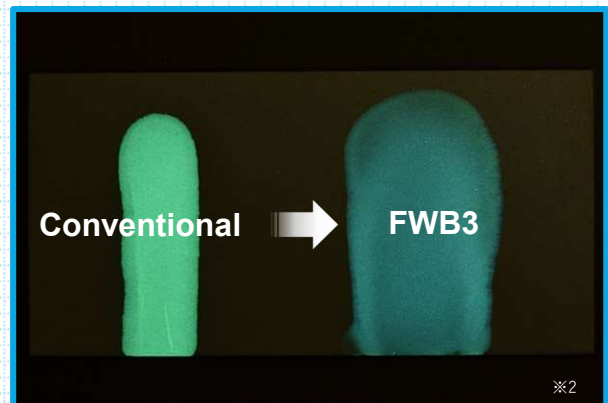

Excellent Washability

※1 Compared to water wash process using by Type 3 test specimen

- Enables Inspection with Reduced Water Usage.
- Wastewater Reduced by **30%** Compared to Conventional Products."

Excellent Surface wetting

※2 Compared to one drop of the test material on each side of the blasted test specimen.

- Reduces Dwell Time and Enhances Efficiency.
- Formulated without Fluorine-Active Agents, Unaffected by PFAS Regulations.

Easy Wastewater Treatment

- Reduces Chemical Material Usage by **50%** Compared to Conventional Products

Environmentally-friendly

- No GHS Hazard Classification or Pictograms. ※3
